Web Developer

Professional Summary

I am passionate about technology and its endless possibilities for innovation and creativity. I enjoy taking on new challenges and I am always actively learning and expanding my skills. I am constantly seeking creative solutions or improvements to complex problems. During a career break, I pursued my desire to become a web developer by engaging in independent learning of programming languages. My goal is to apply my skills, enhance them, and ultimately implement innovative solutions.

WORK EXPERIENCE

I.L Online Services - 2023 - Currently

- Regular maintenance of existing web pages.
- Updating content on web pages.
- Error correction and technical issue resolution.
- Improvement of functionality and design of web pages.
- Creation of new web pages using WordPress.
- Design and development of web page structure and design.
- Plugin configuration and customization of functionality in WordPress.

Freelance Web Developer

GYM Landing page(HTML ,CSS & SASS)

- Responsive and visually appealing design, consistent with the brand image and client's message, to provide a positive user experience. Includes interactive features that allow users to view upcoming classes and events, a contact form for requesting more information, and a gallery showcasing photos of the gym and its facilities.

PROFESSIONAL PROFILE

Booking System (HTML ,CSS & JAVASCRIPT)

- Final Project for JavaScript Course
- Interactive website for vacation apartment booking. Users can select apartments, indicate their preferred dates, and make a booking request. AJAX and JSON are used to fetch data, and various JavaScript tools such as libraries, promises, and asynchronous functions are employed to handle interface events and produce animations in response.

Centro de Pilates Website (HTML ,CSS & SASS)

- Final Project for Web Development Course
- Landing page to promote class services and their plans. The page has been designed to capture the user's attention and motivate them to take a specific action, such as registering through a form and obtaining more information. I utilized Bootstrap for responsive design and SASS for modular organization of styles.

Portafolio Fotógrafo Website (HTML5 & CSS3)

- A landing page designed as a portfolio for a professional photographer, showcasing their work through an image gallery created using Flexbox and Grid. Visitors can explore the photographer's portfolio and contact them for inquiries through a contact form.

Frontend Mentor Challenges:

Price Cards (HTML, CSS, SASS)

- A pricing display that highlights different aspects of a service with a toggle switch for annual and monthly rates.

Sunny-Side Agency Landing Page (HTML, CSS3, SASS)

- A responsive landing page with an attractive design, utilizing Grid, Flexbox, and Media Queries.

E-Commerce Product Page (HTML, JavaScript & CSS)

- A product gallery with cart functionality for an e-commerce website.
