WORK EXPERIENCE

Freelance Web Developer 2021 - Present

Photographer Portfolio Website

- Designed and developed a responsive single page website for a photographer's portfolio using HTML, CSS.
- Optimized the website's layout and content for various screen sizes and devices, resulting in a seamless user experience.
- Implemented functional features such as navigation menus and image galleries.

Booking system

- Built a fully functional and visually engaging simple page website using HTML, CSS, and vanilla JavaScript as a final project submission for a JavaScript course completed in March.
- Developed the project to be responsive and accessible across various devices, resulting in a seamless user experience for users.
- Incorporated functional features such as navigation menus and forms using JavaScript.
- Demonstrated proficiency in web development technologies, including HTML, CSS, and JavaScript.
